

1st Inclusive Insurance Conference

Theme: "Blockchain & Digital Solutions for Climate Risks and Insurance Anywhere, Anytime, Everybody"

2-3 October 2018

W Hotel, Bangkok, Thailand

Breckoning the new era of insurance, transactions and global inclusion: Blockchain. A digital, decentralised and immutable transaction ledger that uses cryptography for secure exchanges is a powerful platform for the interplay of new and existing models of insurance that may include agriculture, crop, parametric, climate risk and weather index-based insurance.

Over time, this could lead to new players entering the blockchain ecosystem. Smart contracts and risk pools with conglomerates and large global charities, would eventually enable inclusion of small scale suppliers, farmers, donors, cooperatives and government bodies. The collaborative commerce value is huge. At the same time regulatory and supervisory authorities will need to respond to a disruptive environment and based on the results of a 'sandbox' approach, among others, come up with new legislation applicable to Insurtech companies, while they will be adapting the consumer protection regulatory framework accordingly.

Asia Insurance Review, together with GIZ RFPI Asia as Co-organiser, is pleased to put together the first-ever Innovative Inclusive Insurance Conference to look at a supercharged insurance industry powered by blockchain technology and digitisation in combination with a modernised

WHO SHOULD ATTEND

- Insurers, Reinsurers, Brokers
- Government Institutions
- Regulators
- Banks
- Financiers

Sign Up Now!

regulatory framework to drive growth, create new value and promote global financial inclusion through innovation and connectivity, and most importantly, to reach out and deliver the benefits and protection to everybody in particular the poor and vulnerable against extreme weather events anywhere and anytime.

TOPICS

- Current Trends: Blockchain in Insurance & Financial Services in Emerging Markets
- Technology Solutions for Climate Risk Insurance: Trends, Challenges and Opportunities
- How Blockchain Can Be Deployed in Insurance – Underwriting, Policy Issuance, Premium Collection, and Claims Payments
- Blockchain for Microinsurance Entities and Even to the Insured Directly? Where to Start and How Does It Work?
- InsurTech Applications in Inclusive Insurance and Related Regulatory Challenges in Asia

Plenary session 1: Blockchain & Digitisation of Insurance Processes

- Mobile and digital insurance
- Digitisation of contracts
- Benefits and challenges of blockchain
- Insurtech and value chain approach
- Minimising basis risk in index-based insurance solutions

Plenary session 2: Regulatory Aspects of CRI

• Digitisation and Sandbox Approach

- Complementary of private insurance and social protection
- Links to financial inclusion and social protection
- InsurTech Supervisory practices

Plenary session 3: Spotlight on Indonesia, Philippines, Thailand and Vietnam

• Digitisation and Blockchain Solutions for the Reinsurance Industry

- Use of technologies in inclusive insurance, CRI and agriculture insurance
- Complementary of private insurance and social protection
- Links to financial inclusion and social protection
- Interagency cooperation

Plenary session 4: Climate Risks, Data Collection and DRF Solutions

■ Technologies for Climate Risk Insurance (CRI) – Indices, measurements, insurance delivery, literacy

- Climate risks assessment for Disaster Risk Finance (DRF) purposes
- Data-related key challenges
- National climate insurance schemes
- Insurance Pools among (re)insurers
- Interagency cooperation

Plenary Session 5: Sustainability of Peer-to-Peer Exchange and Sharing of Knowledge

- Inclusive Insurance key takeaways and the next steps
